

$n = 1$ pitchfork at $\mu_1 = 0.384812$

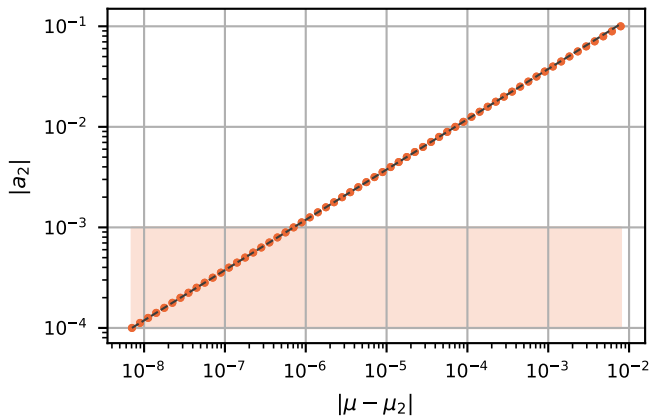

$n = 2$ pitchfork at $\mu_2 = 0.383445$

slope $\beta = 0.5000$ in the shaded window $|a| \leq 10^{-3}$

slope $\beta = 0.5000$ in the shaded window $|a| \leq 10^{-3}$

— uniform traced arms • solved at fixed a_n

--- leading order, $a \propto |\mu - \mu_n|^{1/2}$ $\mu - \mu_n = c_2 a^2 + c_4 a^4$
